I'm up, down spinning around
High and dry and kicked to the ground
I'm lost and I'll never be found
My lips where much too shy
The lines about you, they never rhymed
You said I never get things right
(I never said I was the best thing for you)
And baby where'd you go
I need you here tonight
Singing myself to sleep
You're still my favorite melody
It's been three weeks
How long can this go on
Singing myself to sleep
You're haunting every memory
Get out, goodbye, get out of my life
Goodnight
You're hot, cold
You're battering my bones
You wonder why I lose control
I miss you

Forever you'll stay gold
You know I'm not getting by
I've lost it, you're in my mind
Everydays the darkest of my life
(I never said I was the best thing for you)
Baby where'd you go
I need you here tonight
Singing myself to sleep
You're still my favorite melody
It's been three weeks
How long can this go on
Singing myself to sleep
You're haunting every memory
Get out, goodbye, get out of my life
'Cause I'm drowning when I close my eyes
And I'm fallin' I can't breathe tonight
And a story I fade to black inside (x2)
Singing myself to sleep
You're still my favorite melody
It's been three weeks
How long can this go on
Singing myself to sleep
You're haunting every memory
Get out, goodbye, get out of my life,
'Cause I'm drowning when I close my eyes,

And I'm fallin', can't breathe tonight

And a story, I fade to black inside
