Calm your nerves now
And don't worry, just breathe
Are you sure now?
Don't bother packing, let's just leave

All of them say they wanna change
I hope that you remain the same
To show that this is not a game
Let's end this tragedy today

Now take my hand and we will run away
Down to this place that I know
How did this night become the enemy?
It's over, it's over, it's over

Lay down with me and let me hold you
Baby, just breathe
This is ending
We will get through eventually

All of them say they wanna change
I hope that you remain the same
To show that this is not a game
We'll end this tragedy today

Now take my hand and we will run away
Down to this place that I know
How did this night become the enemy?
It's over, it's over, it's over

Now take my hand and we will run away
Down to this place that I know
How did this night become the enemy?
It's over, it's over, it's over

We won't be a part of
We won't be a part of this
We won't be a part of
We won't, we won't

Take my hand and we will run away
Down to this place that I know

How did this night become the enemy?
It's over, it's over, it's over

Now take my hand and we will run away
Down to this place that I know
How did this night become the enemy?
It's over, it's over, it's over

Take my hand and we will run away
Down to this place that I know
How did this night become the enemy?
It's over, it's over, it's over now

We won't be a part of
We won't be a part of this
We won't be a part of
We won't, we won't
