Go on, fall in, no one will know  
Hold on Foreigner, on you go

Heard it all I've heard it all  
But it won't hurt at all  
Shy away, shy away but don't try to get away

Don't draw the needle, don't draw the needle  
Don't draw the needle on the groove  
And don't leave

Turn me on arousing song for sympathetic ears  
No one cares, no one's there and you, you disappear

Fall in, fall in, fall in  
No one will know  
Go on, fall in, no one will know  
Hold on Foreigner, on you go

Left behind, left behind, left behind  
but not like a Christian kind

Fall in, fall in, fall in  
No one will know

Go on, fall in, no one will know  
Hold on Foreigner, on you go  
Go on, fall in, no one will know  
Hold on Foreigner, on you go...  
On you go
