Oh, as we share this simple night
Do you understand that I
I could never tell a lie

So we all know by now
That you are, you are your favorite thing
Oh when I hear you coming now

So please allow me to introduce myself
I'm the one that you talk about
Can't imagine if you held me any tighter
It will be just as easy to leave me to let me go

It's the way that you are
And you can't breathe without me

Take a few steps back and just watch
The sun sets around me everyday
With my head in the clouds, it's hard to see what's
going on on the floor
I know that every time I see you, we'll want to sing
along
Lets try our hardest to do, what has already been done

A bunch of boys that have it easy
Oh they live in a dream
But it's not that simple no, sometimes we feel just like
machines

(Can't breathe without me)

Take a few steps back and just watch
The sun sets around me everyday
With my head in the clouds, it's hard to see what's
going on on the floor
I know that every time I see you, we'll want to sing
along
Lets try our hardest to do, what has already been done

Take a few steps back
(Too high and incoherent, again)
I'm gonna make you leap into the sun

(The screaming part kinda sounds like that)

Stare, all you want
Cause you know that were on top
This is all that we know
This is everything you want
If you can't stand on your own
Then speak up let us know
Tones will change,
Curtains will drop
Who knew the top would be so fucking ugly?

Stare, all you want
Cause you know that were on top
This is all I've ever known
This is everything you want
If you can't stand on your own
Then speak up, let us know
Tones will change and curtains will drop
Who knew the top would be so fucking ugly?

I know that every time I see you, we'll want to sing
along
Lets try our hardest to do, what has already been done
