Time is truly wastin' , there's no guarantee, yeah  
Smile is in the makin' , we got to fight the powers that  
be  
Got so many voices, saying all the same, yeah,  
Killing up all around me, faces full of pain

I tried to play my music, they say my music's too loud  
I tried talking about it, I got the big runaround  
And when I rolled with the punches I got knocked on the  
ground  
By all this bullshit going down, hey

Time is truly wastin' , there's no guarantee, yeah  
Smile is in the makin' , we got to fight the powers that  
be  
I don't understand it, people wanna say yeah  
Those that got the answers, red tape in the way  
I could tend to it easy, let's just have some fun naw,  
naw  
Seekin' my satisfaction, keeps me on the run

I tried to play my music, say my music's too loud  
I tried talking about it, I got the big runaround  
And when I rolled with the punches I got knocked on the  
ground  
By all this bullshit going down, oooh

Time is truly wastin' , there's no guarantee, yeah  
Smile is in the makin' , we got to fight the powers that  
be  
Fight it baby, yeah, woo, hey, even you and I can fight  
the power  
Fight it, fight the power
