Isobel Campbell
"The Flame That Burns"

The flame that burns
The flame that burns
The flame that burns
The flame that burns
The flame that burns
The flame that burns

???
Can't stop the tears when they fall from me

The flame that burns

Beware my child
Beware
To take care my friend
Got to take care

You don't know who to love
Don't know who to trust
Might hurt so bad
But goes where it must

The flame that burns

Repay we shall
We shall be free
The stars look down
Like dust

Have heart my child
Oh but you must

???
