"Wake up with you"

Visit "[Wake up with you](#)" on MotoLyrics.com

yo (yo)
baby girl (baby girl)
you know i like everything about you (you know i like
you)
but theres one thing
makes me real happy (whats that?)
let me tell you what that is

girl i like, chilling in the park with ya
and i like, when im surprisely miss with ya
girl you know that i like, every new stuff
every single night, when we make love
and i like when you cook me breakfast
when i kiss you beside your neckless
but theres nothing to like anymore then
when i wake up beside you, in the morning

i wanna wake up (wake up, wake up)
every single morning, with you (thats right)
i wanna wake up (wake up, wake up)
every single morning, with you (yo)

i like picking you up at the culb late
we go home, talking about our first date
girl you know, im down every sunday
when we going to church, and have a fun day
i like kicking back, watching tv
but were too busy, talking about you and me
but theres nothing to like anymore then
when i wake up beside you, in the morning

i wanna wake up (wake up, wake up)
every single morning, with you (its true)
i wanna wake up (wake up, wake up)
every single morning, with you (its true)
i wanna wake up (wake up, wake up)
every single morning, with you (you know, that its true)
i wanna wake up (wake up, wake up)
every single morning, with you (with you, with you)
(common) ye-a-yeahhhh

see girl (see)
theres nothing like you (nahuh)
waking up right next to you (thats right, yeah)
sun shinning throught the window (sun shinning)
and i turn, see you next to me
just feels so good

theres nothing like, morning time
seeing you, just feels so right
when i lay, down at night
looking forward to daylight
theres nothing like, morning time
seeing you, just feels so right
when i lay, down at night
looking forward to daylight

i wanna wake up (ohhh baby)
every single morning, with you (wake up with you)
i wanna wake up (wake up, wake up)
every single morning, with you
i wanna wake up (wake upp)
every single morning, with you (you know that its true)
i wanna wake up (wake up, wake up)
everysingle morning, with you (with you with you)
yeahh, yeahh
