(Chorus)

Friend there will never be a friend  
As dear to me as You  
There will never be another  
Closer than a brother  
Friend always worth the wait  
Faithful as the day  
You say we are friends

You know all about me  
The good and the bad  
You know when I rise and fall

You see my beginning  
You stand at the end  
And yet You remain  
Faithful to say I'm Your friend

(Repeat Chorus)

Everytime You call me  
I receive Your healing  
Everytime You call me friend

(Repeat Chorus)
