What you don't like for yourself, / don't give it.
You with your ego, glutness a greeclly, won't achieve it.
Telling Jah people that you cam
When you are just in for the sham
Me say whoa, them blasphemers. / Their plan is to
destroy you.
You watch them, them blasphemers.
Falling angels, them hypnotize you.
They just want to be the leaders.
TO divide, confuse the readers.
Having a form of Godliness on the outside.
But they are full of wickedness on the inside.
Say them can fool some people sometimes.
But they can't fool Jah people in this time.
But true we know Jah low is right.
Children stand up in Jah light.
Failing angel in the garden to make you go wrong.
Hypocrite is in the garden, it won't he for long.
They don't care who they trample.
They are the worst example-
They just want to reach the top.
They don't care about the flock.
They creep into your area / With their devilish behavior.
Poisoning the minds of Jah children.
Destructive force-Jah will defuse them.
Me say whoa, them blasphemers.
Their plan is to destroy you.
You watch them, them blasphemers.
Falling angels, them hypnotize you.
