Yo...Yo...Ayo...Right Ayo
Better get ourselves together
We gwaan have to get ourselves together
Cause that's the only way it's going to work
Get up, stand up make we get ourselves together
Cause only we alone gonna make things work
Dont forget where you coming from
Dont forget where you coming from
Things was so cool back in primary school
Set upon woodbench and we take in the rule
Just because political strategy me and my idren
becomes enemy
Remember when we used to run boat(cook) in a de
ghetto
Cockburn Pen
Two green banana, couple cornmeal flour
That a Kingston eleven
And when we're donw we have fe drink up the potwater
That was your tea, lunch, dinner and supper
That's why I saywe got to get ourselves together
River come down and bring abroad dirty water
Don't burn your bridge after you cross over
Don't forget were we're coming from
Dont forget where we're coming from
