"Rumours of War"

Vast stage of a nuclear energy
In this world of science, technology
Word leaders keep fighting over power
Yet they know not the time, place nor hour
Knowledge of mankind has increase
And still there aint no peace
Everywhere there is just war
A yaga yo yaga yoy
Just a rumours of war
War on the land
War on the sea
War in the air
War everywhere
Just a rumours of war
Until there's no longer first class, second class of any
nation
Class, race or creed
Everywhere there'll just be war
A yaga yo yag yoy
Just a rumours of war
