"So Far Away"

They took us away, so far away
So far away
So far away
With guns and ships and deadly whips
So far away
So far away
So far away
Far...far...far...far away
We slaved so hard in the burning sun
So far away
They took us so far away
We are they who were taken away
Brought down here just to work as slaves
And no more we can take it
No more
They took us away
So far away
Took us so far away
Africa...Africa...Africa
Some makin plan to stay ina babylon
So far so far
Away
Africa land Africa land Africa land
Liberation for everyone
Africa land Africa land Africa land
Where every man should live as one
Africa we want to go
Africa we want to
Go
Africa land
Way above sea level yeah!
