[Verse 1]

It just flashed before my eyes
Like that blinking light before you die
I swear I just saw it
Don't know how to respond

This car is crashing into me
It's the end of this chapter
My life left empty
I saw the light

The brightest light I've ever seen
And an image of you
Was in the middle of it all
From this point I just fall

[Chorus]

I promise I wont cry
I promise I wont die
That illusion looked so real
My life's a never ending wheel (x2)

[Verse 2]

You found someone new it's so hard on me
Because there's nothing I can do, but just let it be
We don't speak anymore
Maybe it's for the better
I wont be able to talk
I may just stutter

[Chorus]

[Interlude]

I'll never forget you as long as I live
So all I ask, just try to forgive

[Chorus]
