See the sky
The celebrated rainbow,
In your eye
The concentrated moonglow,
In your eye

Mocking you,
The nickel-plated night-time,
Nice and new
You realize the right time

Shiver softly summer lady
Cast a glance and tell me, maybe?
Do you remember the sun?
Do you remember the sun?

So a child,
The light is like a comet,
Going wild
The syncopated sonnet

Shiver lightly lovely lady
Cast a glance and tell me, maybe?
Do you remember the sun?
Do you remember the sun?

He remembers you
He remembers you...
