"And I'll Walk Away"

I feel so extraordinarily right
My mind was black but not now it turns to light

Refrain:

Hey Hey Hey
Come on baby better listen up
Say Say Say
Say what you want but I don't give a fuck
And Hey Hey Hey
I shut shut you up
And I'll walk away
Walk
Hey Hey Hey
Come on baby better listen up
Say Say Say
Away Say what you want but I don't give a fuck
Hey Hey Hey
I shut shut you up
And I'll walk away

Up and away!!

I made it unquestionably clear
No more late night talks I have to fear

Refrain

My time is done I'll walk away
My time is done I'll walk away
My time is done I run?

Coz I am better off without you
I will walk away
Because I am better off without you
So much better off

Refrain
