

It's Alive

"Dialysis"

Visit "[Dialysis](#)" on MotoLyrics.com

I'm breathing, guess I'm still alive
But I'm sinking in your eyes tonight
I'm shaking, 'cause I miss the high
I'm regretting that we let this feeling die!

Well if I could change my ways I would (I would)
You know that I'd stop these thoughts if I could (if I
could)
But what makes matters worse, I'm missing you more
I filtered you out, cutting the cord
Dialysis is goodbye!

I'm dozing, 'cause I had you in a dream
Now I'm craving you in my blood stream
Maybe if I keep real still
You might see me when you look for something real

Well if I could change my ways I would (I would)
You know that I'd stop these thoughts if I could (if I
could)
But what makes matters worse, I'm missing you more
I filtered you out, cutting the cord
Dialysis is goodbye!

Well what's it gonna take to get you out of my blood?
I'd do anything, I'd do anything
And what's it gonna take to get you out of my head?

Well if I could change my ways I would
You know that I'd stop these thoughts if I could

If I could change my ways I would (I would)
You know that I'd stop these thoughts if I could (if I
could)
But what makes matters worse, I'm missing you more
I filtered you out, cutting the cord
Dialysis is goodbye!
