### "Drop The Bomb"

Saw an add on the TV screen advertising this institution  
It sounded good for me to fight for peace and to finally  
make ends meet

Paid vacation with the gun in hand on land, in the air,  
on the water

Exploring nature on foreign sand

Where we will march and fight and kill 2, 3, 4

Drop

We wanna know where are we supposed to go

Drop the bomb, drop the bomb and we?ll fight our way  
through

The We wanna know where are we supposed to go

Drop the bomb, drop the bomb and we?ll kill ourselves  
for you

Bomb

I signed up and I made some friends willing to take the  
chance of a lifetime

Coz staying home is not how it ends for me, for me, for  
me

We go their way and without a doubt there?ll be  
parades held in our honor

My mum is scared but my daddy?s proud

And now we march and fight and kill 2, 3, 4

Refrain
