Risk your life and play it safe!
Be beautiful but far from grace
Itchy Hide away to show your face

Standing up while giving in
Stop right now to let it begin
Be an angel filled with sin
Better
Words keep crashing down but drift away
Confusion's here to stay
Of
I'm better off alone
I'm better on my own
Alone Taking charge of everything I know can be so
wrong
I'm better off alone
I'm better on my own
Instead of trading passion for a throne
I'd rather do my things alone

Balance between dark and light
The nice and sweet - get up and fight
What is wrong can't be so right

Please the masses - everyone
Always there but, sometimes gone
Perfect concept - perfect song

Words keep crashing down but drift away
Frustration's here to stay

Refrain

Gimme, gimme, gimme
Some time to relax
I gotta face the facts
I gotta to face the facts
Before I turn into another empty shell
I promise I will always be myself

Refrain

I?m better on my own
Poopzkid Taking charge of everything I know can be so
wrong
I?m better off alone
Better I?m better on my own
Instead of trading passion for a throne
Of I?d rather do my shit alone
