Ready for love... Ready for love... Ready for love...

I start to talk in my sleep, our souls have divided
Why can't they forgive me these demons inside
You got me deeper and deeper, I'm constantly flying
I'm running around but there's no place to hide
I start to talk in my sleep, our souls have divided
Why can't they forgive me these demons inside
Deeper and deeper, I'm constantly flying
My heart starts to shiver for I was letting up
I start to talk in my sleep, cause our souls have
Divided
How can it be that you're ready for love

Ready for love...

Ready for love...

(Repeat)
