

It's Like Love

"Say No"

Visit "[Say No](#)" on MotoLyrics.com

Open minds every week, everyday
Thoughts and plans and hopes to finally get away
Whining and crying, hoping, wishing day to day
Listen to the wise words that I say

Open your eyes, open your mind, everything
Let it all out, do it without questioning
Get up on top, get up and stop wondering
Leave it alone, leave it behind, weakening
(leave it alone, leave it behind, weakening)

So what I know
Why you're running around in circles
While you're heading back to where you started
So what I know
Will there ever be another state of mind that could
discover

Now pack your bags, stand up my friend
Or it will start over again
Do what I did a long time ago
With this eggshell what I said was...

Soak your way, and love is fading on and on
Hearts break, and no forsaking, oh so wrong
Crawling backwards on your knees
What's it for
Obey the brick, I'll bail the crash, forever more

Why can't you see it's the same old enemy
Make up your mind, do it without agony
This is a must, this is his face
Trust in me
Break it all out, break it all out, finally
(break it all out, break it all out, finally)

So what I know
Why you're running around in circles
While you're heading back to where you started
So what I know
Will there ever be another state of mind that could

discover

Now pack your bags, stand up my friend
Or it will start over again
Do what I did a long time ago
With this eggshell what I said was...

(now tell me, why do you always call back
Just do something now
Or life will stab you in the back again and again
And it is not worth it
So make up your mind
Just do what you want to do
And say what you want to say
Or it will forever, forever, forever be the same)

So what I know
Why you're running around in circles
While you're heading back to where you started
So what I know
Will there ever be another state of mind that could
discover

Now pack your bags, stand up my friend
Or it will start over again
Do what I did a long time ago
With this eggshell what I said was...
No
