AMGEDPHA!

ShGL et ChVRVNZVN Ignem procreant
Ulutatus venti pestilentiae deserti
Implosion dissolutionis de hiatÅ´ atemis
Daemonium gravissimus summa tartÅ´ri

HVHY ignem procreat
Elementi spiritum dei dominant
Per cataractam alcaestis terra trunca est
Corona in gladium mortem tuum refunderat

Flatus nivalis terroris ignem procreat
Viscus tenebrarum pulsans
Flucta furrorÅ´s propagat
Monstri bicefali de profundis
Stupidus inversus
Luna mortis

In nomine OThYAL arborem vitam denego
In nomine BLYOL arborem vitam detesto
In nominee QMTYAL arborem vitam abrumpiÅ´
In nominee SMAL arborem vitam concremo

Per umbram indistinctum
Animam meam inflammÅ´
Umbra ignem nomenem tuum
Comprehentur nam
IAD, GEMEGANZA!
