Just living my reasons
Another question undefined
A change in my seasons
I guess it's all right

I look in the mirror
I see myself
It's my time
Just what I borrowed
I'll pay it back later
Tomorrow is today

CHORUS:
Shine sun over my life
Shine sun, wake me up now
Shine sun, show me the light
Sun shine

Just look at those faces
I'm not the only one
Those people, those places
Let me live my life and have some fun

Who's laughing, who's crying
Who's talking, who's lying
I got to get used to being up early
Wake me up and let me go

CHORUS x2
