Good day, I'll say, you're gonna see a whole new way
Ninth wonder of the world
For sale, right now, you won't believe it just how
So come on take a ride

So let the stars collide
In between the lies
You won't forget it

Hoist up the big top
No time to learn the ropes
Here come the stars, the light
Pull out the big stops
We're going to make the show

Good day, I'll say, you're gonna see a whole new way
Ninth wonder of the world
You got this far to be the brightest of stars
So come on, come on...
