There's a recipe
There's a recipe for this
there's a recipe

Something not to miss
And I look into her eye
And I look into her eye

Should I ask myself who's out the window
or start a riot a riot a riot

Welcome to the House of fire
Welcome to the house of fear
Welcome to the House of fire
Come on out the end is near

Need get some sleep
Rest my head against the wall
my hands and my feet

This ain't just a dream
Dirty places look so clean
Dirty places look so clean

Should I ask myself who's out the window
or start a riot a riot a riot

Welcome to the House of fire
Welcome to the house of fear

Welcome to the House of fire
Come on out the end is near

Come along You'll like it
Come along You'll like it
Come along You'll like it
Come along You'll like it
Come along You'll like it
Come along You'll like it

There's a recipe

there's a recipe for this

Dirty places look so clean
