Can't you see it's the last time
for me to take a ride
can't you see it's a must.

It's a bit of a question
for me to stop and stare
guess who's having a blast?

Hey, I maybe right
Hey, It could be right

If I lose my direction
and I can find my way
slowly fading away.

Maybe it's an illusion
it's always in my head
can I poke you instead?

Hey, I maybe right
Hey, It could be right
Hey, I maybe right
Hey, It could be right

Can I send my head away?
Can I run and never stay?

Can't you see it's the last time
for me to take a ride
can't you see it's a must.

It's a bit of a question
for me to stop and stare
guess who's having a blast?

If i lose my direction
and I can find my way
slowly fading away.

Maybe it's an illsuion
it's always in my head

can I poke you instead?

Hey, I maybe right
Hey, It could be right
Hey, I maybe right
Hey, It could be right

Can I send my head away?
Can I run and never stay

If you tell me that I'm going blind
you're my alibi!

If you think that I have lost my mind
you're my alibi!

Always wanted to be on my own
far away from home.

I don't wanna stay
I'm not coming home.
