Visit "[Decay](#)" on MotoLyrics.com

Drifting softly, riding shadows
Let me float away
Closing my eyes, wandering so far
Trying to stop this slow decay

Aah, I'll never be the same again
Aah, I'll never be the same again

Silence fills me, sweet infusion
Let me start to fade away
Rising higher and no longer
Watching myself in slow decay

Aah, I'll never be the same again
Aah, I'll never be the same again
Aah, I'll never be the same again
Aah, I'll never be the same again
