All I know is what I feel
And what I feel is all too real
It's pecking hard, it's cracked the egg
It's come to life

Oh, God I hate December
December, December
God I hate December

All I know is what I dream
But lately dreams have been such scary things
Of suicide and frozen ice
Over my pale body

Suffocating December
December, December
God I hate December

Oh, God I hate, God I hate December
December, December
God I hate December
