You said there's gonna be one less lonely girl
(One less lonely girl)
One less lonely girl
(One less lonely girl)

You said there's gonna be one less lonely girl
(One less lonely girl)
One less lonely girl

So sick of crying, now this game's over
Your shoulder i've cried on before
All broken promises, i'm honest boy
Should never let it go this far

Got all my bags packed
Baby this time i ain't takin' 'em back
Can tell you that
There ain't no either or
No, no more
If i let you inside of my world
Would there be one less lonely girl?

Ohh oh oh
Betcha you saw so many pretty faces
Before you saw me me
Now all you see is me
I'm turning to you
(I'm turning to you)
Noo oh
Take your time try to get through
And when you walk into my world
Imma be your one and only girl

(All my trust in you)
One less lonely girl
(Don't know what else to do)
One less lonely girl
(If what you say is true)
One less lonely girl
There's gonna be one less lonely girl
(Boy i'll let you through)
you're gonna put me first

(You're coming for me)
free me from this curse
If i let you inside of my world
Would there be one less lonely girl?

Christmas never merry, 14th of February
Never thought he'd ever be so cruel
Too many dinner dates
Broken dinner plates
How could i have been such a fool?
Burning photographs, now there's no going back
Couldn't ever find an open door
But i'll cry no more
And when you walk into my world
No longer be that lonely girl
Ohh oh oh
Betcha saw so many pretty faces
Before you saw me me
Now all you see is me

Noo oh
Don't need anybody else the way I need you
break you heart baby no never
i'll be your girl always & forever
One less lonely girl
(All my trust in you)
One less lonely girl
(If what you say is true)
One less lonely girl
(Boy i'll let you through)
you gonna put me first
show me all that i'm worth
If i let you inside my world
Would there be one less lonely girl?

can you can fix up my broken heart?
protect me from the dark?
make you believe
(Yeah oh)
I wanna be free to fall
Free to fall
Fall in love
My hearts locked and boy you have the key
now take me away and we'll leave the world with one
less lonely girl

You said there's gonna be one less lonely girl
(One less lonely girl)
One less lonely girl
(One less lonely girl)

One less lonely girl
(Oh not lonely)
One less lonely girl
(Never gonna be lonely)
One less lonely girl
(Now i've found you, Yeah)
know that you'll put me first
release me from this curse
stay and hold me tight
when i'm scared to sleep at night
now i'm you're one and only girl
the light's back in my world

One less lonely girl
One less lonely girl
One less lonely girl
heartbreak broke the girl girl
your love broke the curse
you showed me what i'm worth
now i'm not that lonely girl
