By now there's nothing left to say
I just opened your letter
I know you're only human but
I expect something better

You let me down again
You drove me to the end

And it's so strange
The way you've changed
You knew me well
Now, I can tell you don't know anything

By now there's nothing I can say
I just finished your letter
I know you're barely human but
I can get something better

You let me down again
You drove me to the end

And it's so strange
The way you've changed
You knew me well
Now, I can tell you don't know anything

You let me down again
You drove me to the end

And it's so strange
The way you've changed
You knew me well
Now, I can tell you don't know anything

And it's so strange
The way you've changed
And it's so strange
The way you've changed

And it's so strange
And it's so strange
