Already done, already invented  
So much for being new  
It's not advice despite that you meant it  
You're changing a changing view

But I still chase the fastest girl  
I will chase her across the world  
But as far as the world's concerned  
This is the best tip around

Hanging on the tip of your tongue  
Running from the truth when it comes  
Standing with the sun I can see  
There's a shadow washing over me  
Hanging on your every word  
Listening to tips that I've heard  
I'm trying something new that you won't believe

Already done, already behind us  
Let's try and do it all again  
Find someone new and do something better  
Tell them it will never end

But I still chase the fastest girl  
I'll chase her across the world  
But as far as the world's concerned  
This is the best tip around

Hanging on the tip of your tongue  
Running from the truth when it comes  
Standing with the sun I can see  
There's a shadow washing over me  
Hanging on your every word  
Listening to tips that I've heard  
I'm trying something new that you won't believe (Won't believe)

Hanging on the tip of your tongue (of your tongue)  
Running from the truth when it comes (when it comes)  
Standing with the sun I can see there is a shadow  
washing over me  
Hanging on your every word (every word)

Listening to tips that I've heard (that I've heard)  
I'm trying something new that you won't believe  
Won't believe
