"Yes To Running"

Visit "[Yes To Running](#)" on MotoLyrics.com

Whoa, whoa, yes to running
She said yes to running
All the hearts in all the world
Never conquer mine
She said yes to running back to me again
Ever know you're not alone, buried on you ,
She said yes to running back to me again

Whoa, what you gonna say? Whoa
She said yes to running
While her heart beat files a warning
Whoa, what you gonna say? Whoa
She said yes to running
While her heart beat files a warning

For the love in other words, common bury me
She said yes to running back to me again
There's a truth in every word
Leading back to you
She said yes to running back to me again

Whoa, what you gonna say? Whoa
She said yes to running
While her heart beat files a warning
To my soul, to my lonely soul
Yes to running
While her heart beat files a warning
To my soul, to my lonely soul
Yes to running
While her heart beat files a warning

Whoa, what you gonna say? Whoa
She said yes to running
While her heart beat files a warning
Whoa, what you gonna say? Whoa
She said yes to running
While her heart beat files a warning
Shot to me, to me.
