Fall low into silence and fill  
Up your mental calix with black  
Substance of nothing  
Burn 3 blood candles and breath  
The dense fumes of Gorgio  
Enter the sacred circle and hail  
The altar of the dying sun  
8 silver tinklings to hear the  
Secret name  
Rise from silence, open your  
Eyes and vibrate  
Gorgot, Assai belem  
I invoke you timelessness  
Who visits earth and skies  
You, who lives night and day  
Who knows darkness and light  
Asar Lin-Nefer  
No one ever saw you, in any time  
You are jabas, you are japos  
You are the right, and the  
Unfair  
You are the female and the male  
You are seeds and fruits  
I am the ancient to whom you  
Entrusted the mysteries  
Listen to me cause I'm the angel  
Of Shaytan and this is your real  
Name  
East air  
Listen to me and subdue all  
Demons to me  
So that all spirits of external  
Spaces and seperate dimensions  
All spells and gods scourges  
Obey me, on and under earth  
In the great water, in the  
Whirlwind, in the burning fire!  
South fire  
I invoke you, terrible and  
Ivisible god who resides in the  
Empty of the spirit  
West Water

Listen to me.  
Ru-Abra-lao-Mariodam  
Babalon-Baoth  
Assal-Ou Ai Aphaniao I thothe  
Abrasar Acooi Ischure  
Powerful and timeless  
North earth  
I invoke you, Ma Barraio loel  
Kotha Athor-E-Bal-O Abraoth  
East spirit  
Listen to me  
He's the gods' master  
He's the god of universe  
Winds fear him  
It's him who uttered the word  
He's the master of everything,  
King, ruler, succourer!  
North spirit  
Listen to me  
I'm the timeless spirit, strong  
Immortal fire  
I am the truth, I am him who  
Shines and thunders!  
I am him whose mouth blazes  
Eternally!  
I am him who begets and shows  
The light  
Heart and serpent are my names

lao Sabao, those are the words

Now burn up 3 blood candles and  
Wait for the empty time  
Gorgot Necrod Belem

I dismiss you, threshold  
Guardian, unfathomable Gorgoi!  
And go back to your dimensions  
Secording to your law  
I will not suffer any pain
