Damnation is honor  
Damnation is pride  
Damnation the ultimate superiority-ride  
Damnation is force  
Damnation is key  
Eternal source of every spirit free  
Damnation is beauty from top to core  
Damned souls to win every war  
Hellfire, all admired, pristine fucking true  
It's still a world that has no clue  
Beyond lore, exterminating war

Shifting structures  
Desperate empire  
Never truly prepared for  
The ancient ones  
Revelling in this  
Failing mass-control  
Legislating the rule  
Of righteousness
