Verse

End of time, loss of life
Strand of mind, shadows break the light

Chorus

In your fear, you are blind
Madness breaks all design
In your heart, another mind
In your soul, you have died

Verse

Reflection black, image takes ahold
Falling deep in eyes of what you behold

Chorus

In your fear, you are blind
Madness breaks all design
In your heart, another mind
In your soul, you have died

Voices forcing to withstand
Against the storms of bleeding skies
Drops of hate, stain the land
Burning you alive

Interlude

Annihilator
From the breath which you have taken
Life of your war
Premonator
Visions of what you awaken
Life of your war
Assassinator
Blood of that what you've mistaken
Life of your war
Discriminator
Shadows of your soul have fallen

You are no more

Chorus 2

Fade away

With the cold

Last array

The stories told

Releasing time

End of days

It's your turn to fade away
