I'm finding it hard to tell you what's on my mind  
Everyday is just like a broken record  
Too many things said and done  
Too many mistakes, too many lies  
I feel like I'm going out of my mind  
And eventually your gonna have to go, somewhere I'm  
not, you want to know  
But...

It's personal, it's personal  
You always want to know everything on my mind  
Well it's personal baby, I just can't tell you,  
So just leave me alone right now.  
I am sorry it has to come to this  
But you would find it too complicated  
Your just that type of person  
So just leave me alone right now.

You would never forgive me  
For what I would tell you  
You would go out of your mind  
There is too much going on right now  
There is never the right time to tell you  
So I push the situation to one side for now  
And eventually your gonna have to go, somewhere I'm  
not, you want to know  
But...

It's personal, it's personal  
You always want to know everything on my mind  
Well it's personal baby, I just can't tell you,  
So just leave me alone right now.  
I am sorry it has to come to this  
But you would find it too complicated  
Your just that type of person  
So just leave me alone right now.

It's personal  
Personal  
Personal  
Personal

So just leave me alone right now  
Leave me alone  
Just leave me alone  
Leave me alone right now  
You wouldn't understand the pain  
In my heart  
That's because it's breaking slowly  
So much pain, so much thought, one more word and I'll  
be gone  
For a reason that you don't know  
And eventually your gonna have to go, somewhere I'm  
not, you want to know  
But...

It's personal, it's personal  
You always want to know everything on my mind  
Well it's personal baby, I just can't tell you,  
So just leave me alone right now.  
I am sorry it has to come to this  
But you would find it too complicated  
Your just that type of person  
So just leave me alone right now.

If you want to know then you have to wait  
And be patient as it's personal  
It's personal  
It's personal
