Staring at you with my eyes  
Oh are you in disguise?  
I can feel these butterflies  
That are hiding from you in disguiseÂ

Oh I just met you  
Would you like to  
Know me better  
I just met her, I know I want to know her betterÂ

My first crush went a little like this  
Running around chasing after your kiss  
Oh how you look so swish  
Your my shooting star wish  
Your my shooting star wish

Walking Talking everything is fine  
Would you like to date me and dine  
Wondering if you like me  
Well time will pass and we will seeÂ

Oh dear diary she makes my world feel better  
Well what do you know I just met her  
Now I know this will get even better later

[Chrous]

I think I want your American tan  
I think I'm gonna be your biggest fan

[Chorus x2]
