You really get on my nerves  
When i say something  
You always have to go against  
Then when we argue,  
you think somethings wrong with me  
So Stop It, I Cant be bothered

Stop Worrying about me  
Im fine and i dont need your thoughts  
I know whats wrong with me  
And thats because of you  
Stop Worrying about me  
your messing with my mind

You always judge other people perfectly  
But its always me where you find a weak spot  
You start to get worried when i talk sense  
Thats because you dont know what sense is  
So Stop It, I cant be bothered

Stop Worrying about me  
Im fine and i dont need your thoughts  
I know whats wrong with me  
And thats because of you  
Stop Worrying about me  
your messing with my mind

People think of me differently  
everytime you open your mouth  
I feel most angry with you  
Then you start to worry  
about something thats normal  
So Stop It, I cant be bothered

Stop Worrying about me

Im fine and i dont need your thoughts  
I know whats wrong with me  
And thats because of you  
Stop Worrying about me  
your messing with my mind

Your messing with my mind  
You only have one emotion  
And that's worry  
So Stop It, I can't be bothered

Stop Worrying about me  
I'm fine and I don't need your thoughts  
I know what's wrong with me  
And that's because of you  
Stop Worrying about me  
your messing with my mind

Stop Worrying about me  
I'm fine and I don't need your thoughts  
I know what's wrong with me  
And that's because of you  
Stop Worrying about me  
your messing with my mind

Please let your mind search for another emotion  
You think messing with my mind helps  
But it doesn't  
So Stop It, I can't be bothered

Stop Worrying about me  
I'm fine and I don't need your thoughts  
I know what's wrong with me  
And that's because of you  
Stop Worrying about me  
your messing with my mind
