"The Last Time"

Visit "[The Last Time](#)" on MotoLyrics.com

This is the last time I'm going to fall in love with you
Because I find it so hard to get over you
I guess I should be moving on from you
This is the last time I'm going to fall for someone as
hauntingly beautiful as you
This is the last time
This is the last time
This is the last time
This is the last time
This is the last time I'm going to fall in love with you
I've tried for so long to figure out how to get over you
I wish it was easy to get over someone as dangerous
as you
This is the last time I'm going to fall in love with you
I wish I could get over but all that's on my mind is you
When all I think of everyday is me and you
If I'm making a big mistake then I'd rather make it with
you
This is the last time
This is the last time
This is the last time
This is the last time
This is the last time I'm going to fall in love with you
I've tried for so long to figure out how to get over you
I wish it was easy to get over someone as dangerous
as you
How do I get over you
When all that's on my mind is you
How do I get over you
I'd rather fall in love with you again because it feels so
good
This is the last time I'm going to fall in love with you
I've tried for so long to figure out how to get over you
This is the last time I'm going to fall in love with you
