We both know you can't plan  
Something as real as this  
It takes more than plans to feel like this  
If only we could know what we were getting into  
And just what we would both mean to the other  
I don't think I'll get much sleep tonight

I am everything you're not  
And it's exactly what you wanted

We both know you can't plan  
Something as real as this  
It takes more than plans to feel like this  
It takes us  
And I hope that you find everything  
You thought you would  
Everything you thought you would tonight  
So I can get some sleep tonight

Just go with your gut for one more night

We both know, you can't plan  
Something as real as this
