I'm not fooled by the tales I tell,  
so why the fuck are you my friend  
I've never been as far as space  
so tell me friend have you - yeah

I've never had a million year summer  
I've never had a million year summer

But then again my memory fails  
The smoke you know, it clouds my mind  
I've never seen a spiral dance  
Or try to kiss the planet Wode  
Repeat Chorus

My summer was a million years  
The sacred oak, my home, my dwell  
I've touched the furthest depths of space  
The holy stone is mine now - yeah

Glory to the day
