_____rap____

c c c come over drop it like it's hot
and jiggle dat big old back just like i like it
can't wait to participate
when u make it vibrate and rumble like a sidekick
in mini skirt the way you hike it
up to the arch of your back so i can see the thong
i set my sights for tonight gettin right
but your slowly seducing me to doing wrong
baby girl this pipe is long
you movin like you ripe and young

peep this exhibition of gorillaz here
and then you'll kno who putt the king in the kong
done easy like singin a song
i can go all night long
you'll like what i'm gona do tonght
and skrew u right
and as a real player bring truth to light
now i'm gona scoop u in the coop on white walls
you see me stuntin had to jock for a slight pause
acting stank like you don't take night calls
i spit a bit of this game
and now u on my nutts like tight drawers
