Sometimes I think about it
And my poor heart wants to die about it
About the sweet sweet love I lost
And the weed I got double double cost
My god who else my free
I see it now and then
But I pretend I'm doing fine
When I'm about to lose my mind

Oh nigga I grew up fast money falling out my pocket
I got too much cash
Came for nothing and I'm pocket she got too much ash
Like damn, well if you must cash
Like god damn what if you must ask
Wait for the school hot nox but you crew cut class
And that's why don't think I got a crew club pass
When I'm in the v police f*ckin with me
No sort no license I got this f*cking degree
Over long s*cking I ain't to see
Unless you're talking lock busters you niggas you're
not...
You more diggy, me I'm more biggy no distant to the
young one
I'm just rapping get bored quickly
Just to make your for that line... more with me
Join the game let the... for these hores with me
Run through their doors with me
Hit the rist cut and for the night
Leave a... two dight wallets change a nigga life right
What up vanessa I love you one semester
Thank to my professor I ball like uncle vester
Thinking bout the ball I used to have above the dresser
Have to shit I roll down I did it so now
I got new dolls
Plus my money and new ball
Funny how my all eyes is suddenly my new hoe
Caught it every chicks and she model she swallow
So I only f*ck with hatrix
Bitches what a few goals
Bitches what a few goals

Niggas keep me how I feel

Not even slightly interested in what...
I got a great purpose that I hate the purpose
I'm a stack paper hustle than the relax later
Certainly 'cause I'm brain change that's the way it's
purpose
Look how made em nervous
Niggas is shaking I know they're faking
Okay you were killing right

I'm the dead b father you're the little brother
Another words god damn it I'm a mother f*cker is call
