

## **J Mascis And The Fog "Back Before You Go"**

Visit "[Back Before You Go](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Gotta tip off there's a sabatoer at bay  
Brutal message hits I gotta wanna play  
I need God beside me love to light my way  
Give me the guts to choose the strength to stay

I know it I know it well  
It could be back before you know  
Back before you go

Gotta let this one go  
It could be back before you know  
Back before you go

Back to a place that's doin nobody no good  
There's a strength there if I really understood  
I need God beside me piled deep in sludge  
A deadness so relentless will not budge

I know it I know it well  
It could be back before ya know  
Back before you go

I know it
