Alaska - Cactus

Goin' to Alaska  
Where the water runs clear as glass  
The home of the penguin,  
The walrus and Aurora Borealis--oh yes  
See my baby's heart is frozen  
She just don't treat me nice  
I'm gonna search out Santa Clause and ask his advice  
When I get up to Alaska maybe someone there'll treat  
me right

I will build me an igloo live alone in my dome of blues  
Buy me a low-mileage dogsled and some alligator  
snow shoes  
I hear six months a year you get night time all day  
I had to practice my harp to keep the polar bears away  
Way up in alaska where the whales and the eskimos  
play

(guitar solo)

If she treated me better man I'd be warm right now  
But my soul's condemned to shivers 'cause she thinks  
I'm running around  
So I sit here cryin' tears they freeze on my face  
If it gets any colder I'll be frozen in place  
In rock hard Alaska you'll gonna be my home

Way up here to alaska y'know the ground here is solid  
ice  
Way up here to alaska y'know the ground here is solid  
ice  
Had to leave my woman 'cause her heart is so cold  
When I get back from the north pole I will defrost her  
soul  
Way up in alaska maybe some day I'll treat me right
