[J Wess repeat x2]

Do you really want him or?

Do you really want me?

If you really want him

You've got to tell me

[Kulaia]

I love you, (I love you)

That much I know is true (So true) Yeah (So true)

I need you, (I need you)

I'll always be there for you (always mine \*\*\* ma) Yeah

[J Wess]

Hey while you rollin with him,

That ain't nothin' to me,

I put it down slick girl, that it's somethin to see

I know you bored while he chokin on the Selwyn fans

That's when I creep up, no when you won't tell your man

Coz you feel I'm apealin', I know the look

In your eyes did the lies mine, i wrote the book

An' I show you the line it ain't game it's true

He ain't there for you, I'ma put the flame in you

C'mon

[Kulaia]

I love you the way, your style

It's you that drive me wild,

And the sweet things you say

Just makes me wanna say

You've got a heart of gold,

You should have got me so

No one else can compete,

My baby can't you see

[Chorus:]

I love you, (I love you)

That much you know it's true

(Coz I know it's true babe, yeah, and I know it's you  
babe)

I need you, (I need you)

I'll always be there for you

(Coz I know it's true babe, yeah and I know it's you

babe)

[J Wess]

You're rollin' wid me cos' I treat you right,  
He's a fool and you know he's gonna creep at night.  
Then I see him around town with a flock of chicks,  
Probably got em' on the street to clock his chips.  
And I heard he's a one hitter quiter in bed,  
I'll show you the glamour and the glitter instead.  
We've been down for a while girl show me a sign,  
Then i'll show you it only gets better with time.  
Holla.

[Kulaia]

Your smile and strong embrace (ok),  
I fantasise a place (that's right),  
When we're alone and I (what's that),  
Feel like it's paradise (feel it).  
So nice it will be (wooh),  
Just right baby you and me.  
I do for you and you do for me (sing it),  
Your love is ecstasy.

[Chorus]

[J Wess]

Its a catch 22 for a girl like you,  
I know your scared thinkin' about what the world might  
do.  
You can stay in them snuck-fit comfy jeans,  
Or you can roll wid a rapper tearin' up the scene.  
Either way it was written that it's meant to be,  
I sense that we could raise the intensity.  
But it's cool if you jus' wanna give me the eye,  
I don't know dude, your the one who lives with the guy,  
right?

[Kulaia]

Your smile and strong embrace,  
I fantasise a place,  
When we're alone and I, feel like it's paradise.  
So nice it will be, just right baby you and me.  
I do for you and you do for me, your love is ecstasy.

[Chorus]

[J Wess repeat til fade]

Do you really want him? Or do you really want me?  
If you really want him, you've got to tell me.
