Take a look at me . . .

Chorus

Take a look at me
and tell me what you see
I need somebody to love me for me
why don't you take a look at me
and tell me what you see
I need somebody to love me for me

Verse 1

Everytime I look around there's someone
to help me out or be in doubt
Your always there by my side
Never asking for to much
Your always willing to try so baby take a look

Any time I need someone to love me for me
Could you be the one to set my heart so free
Everytime I need you near (yeah)
to show that you care
I'm in need of love just take a look

Chorus

Bridge

Oh how I need someone to love me for me
could you be the one to set my heart free
How I need you near to show that you care
I'm in need of love, just take a look (Yeah)

Chorus (fade out)
