A planet B you better keep one  
Niggas think it's sweet one  
To fold under pressure the very second them peeps  
come  
Nigga's a bunch of old bitches like  
I don't believe none of your rhymes, fam they all lies  
Ain't gotta show the fanished product,  
That is handicap, cause they know every...  
I get it shaking like a nigga that's shivering  
Slugs penetrate you, you instantly start hemorrhaging  
Plan very... like your foot's in the phone  
And the same bitches some of these rappers got in  
they homes  
...Cooler than a motherfucker, but the flow hot  
That nigga sweating like wearing ... with no socks  
Denzel voice, I got that blue dream  
Get out of line, it's gonna be uglier that... now that's  
ugly  
Shit well, feces, I'm not a human, I'm a whole different  
species  
Speeding in my new whip, but I'm on my old shit  
I'm a web shark, these niggas gold fish  
Popping artillery that will pop make and make the fool  
split  
Never purchase... I need to whole shit  
Hold the ... save yourself the embarrassment  
You want ... dude you better cherish it  
Squeezing like detergent, niggas dropping like ...  
If the police question neighbors, they gonna say they  
ain't heard shit  
Fresher than a new born, premature shoes on  
that won't drop until the little kids put they ... on  
Never seen these, back to back Jeez  
Only stunner I swam you, leave you food for the fleas  
Come inside the diggy, and a muzzy know you ziggy  
... second I get off the titty  
... I'm mob goodie, I'm all about my green, c ya nigga.
