I hit my knees and say a prayer I hope the Lord hear me
Got a fake nigger foible I don't like them near me
... niggers wanna add me... like a company... I get busy
Little niggers going o the... be a fool not to answer it
Under dog might see me holler at the moon... they are
faking
It the... like my boss do... chances you see me like...
first named D

Last named Davis... I am gonna do... roll like it was part
of a track...
It's a cold world fuck you think... looking again ain't with
the joking I
Need that baby
... I need more... I am all about my family but I need... all
you niggers
Are dead better pull some...
