## VERSE 1

The world seems so cold  
When i face so much all alone  
A little scared to move on  
And knowing how much I have grown.  
And I wonder just  
Where i fit in  
All the vision  
That i've found in my hair

## CHORUS

I will be strong on my own  
I will see through the rain  
I will find my way  
I will keep on travelling down the road  
Till I finally reach my dream  
Till Im livin im my rhythm.  
My destiny.. yeah

## VERSE 2

I can't let go now  
Even when hardness surrounds  
And if i hold on  
I will show the world  
All the things that you never expected to see eh from.  
Let alone me the shy girl  
And i wonder just where my place is  
Close my eyes and I find myself compared. Whoa yeah

## CHORUS

I will be strong on my own  
I will see through the rain  
I will find my way  
I will keep on travelling down the road  
Till i finally reach my dream  
Till Im livin in my rhythm my destiny

## VERSE 3

whoa whoa oh.  
He comforts me  
Ooh he keeps me in a lively state of mind

Always guiding me  
Providing me  
With the help I desperately need  
Well I gotta believe theres something out there meant  
for me  
Well I get on my knees praying I will recieve  
The courage to grow and the faith to know

CHORUS

And I will be  
Strong on my own  
I will see through the rain  
I will find my way  
I will keep on uh travelling down the road  
Till I finally reach my dream  
Till Im livin in OUR rhythm, my destiny

Ooh Ooh Whoa yeah
