[Feat. LaRon]

Everytime I get to look upon your face
I feel like my soul is dying
Everytime I reach for you it's empty space
I feel like my heart is crying for you
I hate to be away from you but I'll...
I'll understand if you can't give me all I've dreamed of
But I'll still be waiting, cause I can't get over you...

When we were in love...
You told me I was your angel
You were the one
What can I do
What do I say
You took our forever and ever away
Away... away...
You took our forever and ever away
(Forever and ever... away... forever away...)
You took our forever and ever away

It's like I'm stuck in one place
I just keep going around
I can't keep wondering around so I just...
Took my heart up off the plate
Cause I continue to cry
I don't know why I keep trying... to fit a picture in this
frame
You just break it everyday (but I can't get over you)
My mind is telling me to leave
In my heart I just don't know what to do
Cause I can't get over you

When we were in love...
You told me you were my angel
And I was the one
What can I do
What do I say
You took my forever and ever away
(Forever and ever... away... ever away...)
You took our forever and ever away
(Forever and ever... away... ever away...)

You took our forever and ever away
(Forever and ever... away... ever away...)
You took out forever and ever away

So how can I love you
When you made me believe that it was only me... me...
How can I trust you when you deserved to leave
What made you lie to me... me...
How can I touch you
I feel it in your touch
There's no room for us
How can I want you (uh huh)
When I deserved to be with someone who truly loves
me... yeah... yeah...

I'm talking on a daily
She got me goin' crazy
My baby ain't the same as
As all these people sayin'
And I ain't really patient
But I'm debatin', waitin',
Cause she be hesitatin',
And she gon' slip a mistake in
Thinkin' I put my faith in
How could this help the datin'
She ain't participatin,
And if I'm not mistaken
Late at night the phone vibratin'
Translation nigga's cakin'
My trust is slowly breakin'
So I'm the one that's breakin'
Was it the weather baby
You said forever baby
And through the rain and the storm I was your shelter
baby
I'm looking at your picture,
This is my coldest winter,
I'm feeling like december
I'm feeling like december

Forever and ever away... ever away... (away til end of
song)
